

§ 106-202.13. Declaration of policy.

The General Assembly finds that the recreational needs of the people, the interests of science, and the economy of the State require that threatened and endangered species of plants and species of plants of special concern be protected and conserved, that their numbers should be enhanced and that propagative techniques be developed for them; however, nothing in this Article shall be construed to limit the rights of a property owner, without his consent, in the management of his lands for agriculture, forestry, development or any other lawful purpose. (1979, c. 964, s. 1.)
