§ 143-162: Repealed by Session Laws 1955, c. 984.

§ 143-162.1. First menu operator access.

(a) The General Assembly finds that:

- (1) Some telephone systems operated by State government agencies require callers to proceed through several menus to finally reach an individual extension, an arrangement that can be intimidating to the caller;
- (2) Many State telephone systems also make it difficult to reach an attendant or operator at the agency; and
- (3) While automated telephone systems and voice mail are intended to improve the efficiency of government, the first duty of government is to serve the people, and efficiency should not impede the average citizen in attempting to contact a State agency for service or information.

(b) State agency telephone systems routing calls to multiple extensions shall be reprogrammed by September 1, 1997, to minimize the number of menus that a caller must go through to reach the desired extension, and to allow the caller to reach an attendant or operator after accessing not more than two menus from the first menu when calling during normal business hours. As used in this section, the term "menu" refers to the first point in the call at which the caller is asked to choose from two or more options, regardless of whether that choice is referred to as a menu, router, or other term within the telephone industry itself.

This act shall be implemented by State agencies with existing personnel at no additional cost to the State.

(c) All State agencies shall include the agency's telephone number or numbers in a prominent place on all agency letterhead.

(d) The provisions of subsection (b) of this section shall not apply to any "511" traveler information system operated by the Department of Transportation.

(e) The provisions of subsection (b) of this section shall not apply to any call center operated under the Department of State Treasurer. (1997-351, ss. 1, 2; 1999-429, ss. 1, 2; 2003-184, s. 4; 2020-29, s. 3.)

§ 143-162.2. Use of public property by production companies.

If a State agency makes real property available to a production company for a production, it shall not charge any fee other than reimbursement of actual costs incurred and actual revenues lost by the agency. As used in this section, the term "production company" has the meaning provided in G.S. 105-164.3. This section does not require a State agency to make real property available to a production company for a production. (2000-153, s. 3.)

§ 143-162.5. Use of mobile electronic devices.

(a) Every executive branch agency within State government shall develop a policy to limit the issuance and use of mobile electronic devices to the minimum required to carry out the agency's mission. As used herein, mobile communication device includes goods provided by commercial mobile radio service providers and services for mobile telecommunications governed by Title 47 of the Code of Federal Regulations. By September 1, 2011, each agency shall provide a copy of its policy to the Chairs of the Appropriations Committee and the Appropriations Subcommittee on General Government of the House of Representatives, the Chairs of the Appropriations/Base Budget Committee and the Appropriations Committee on General Government and Information Technology of the Senate, the Chairs of the Joint Legislative Oversight Committee on Information Technology, the Fiscal Research Division, and the Office of State Budget and Management.

State-issued mobile electronic devices shall be used only for State business. Agencies shall limit the issuance of cell phones, smart phones, and any other mobile electronic devices to employees for whom access to a mobile electronic device is a critical requirement for job performance. The device issued and the plan selected shall be the minimum required to support the employees' work requirements. This shall include considering the use of pagers in lieu of a more sophisticated device. The requirement for each mobile electronic device issued shall be documented in a written justification that shall be maintained by the agency and reviewed annually. All State agency heads, in consultation with the Office of Information Technology Services and the Office of State Budget and Management, shall document and review all authorized cell phone, smart phone, and other mobile electronic communications device procurement, and related phone, data, Internet, and other usage plans for and by their employees. Agencies shall conduct periodic audits of mobile device usage to ensure that State employees and contractors are complying with agency policies and State requirements for their use.

Beginning October 1, 2012, each agency shall report annually to the Chairs of the House of Representatives Committee on Appropriations and the House of Representatives Subcommittee on General Government, the Chairs of the Senate Committee on Appropriations and the Senate Appropriations Committee on General Government and Information Technology, the Joint Legislative Oversight Committee on Information Technology, the Fiscal Research Division, and the Office of State Budget and Management on the following:

- (1) Any changes to agency policies on the use of mobile devices.
- (2) The number and types of new devices issued since the last report.
- (3) The total number of mobile devices issued by the agency.
- (4) The total cost of mobile devices issued by the agency.
- (5) The number of each type of mobile device issued, with the total cost for each type.

(b) This section does not apply to the legislative branch or the judicial branch of State government. (2011-145, s. 6A.14(a), (b); 2011-391, s. 11(f); 2012-142, s. 6A.7; 2015-286, s. 3.1.)

§ 143-162.6. Use of ESG and ETI prohibited in employment decisions.

(a) As used in this section, "environmental, social, and governance (ESG) criteria" or "economically targeted investments (ETI) requirements" means using a set of standards to screen potential investments based upon the perceived impact to the environment and the social

relationships between a company's employees and the community. The term also includes how a company's leadership is structured in support of those standards.

(b) No State agency, political subdivision of the State, trust, committee, or commission of any political subdivision of the State shall use, enforce, provide data for use in, or otherwise participate in the creation or use of ESG or ETI policies related to hiring, firing, or evaluating employees.

(c) Except as allowed by law, ESG, ETI, or related criteria shall not be considered in the awarding of State contracts. (2023-64, s. 1(a).)
