§ 104E-10.2. Conveyance of property used for radioactive material disposal.

A license to dispose of radioactive waste materials on land shall include a legal description of the disposal site that would be sufficient as a description in an instrument of conveyance. The license to dispose of radioactive waste materials shall not be effective unless the owner of the disposal site files a certified copy of the license in the register of deeds' office in the county or counties in which the site is located. The register of deeds shall record the certified copy of the license and index it in the grantor index under the name of the owner of the land. When any such site is sold, leased, conveyed or transferred in any manner, the deed or other instrument of transfer shall contain in the description section in no smaller type than that used in the body of the deed or instrument a statement that the property has been used as a disposal site for radioactive waste materials and a reference by book and page to the recordation of the license. (1981, c. 480, s. 1.)
