

§ 106-189. Sale and receptacles of standardized products must conform to requirements.

Whenever any standard for the grade or other classification of any farm product becomes effective under this Article no person thereafter shall pack for sale, offer to sell, or sell within this State any such farm product to which such standard is applicable, unless it conforms to the standard, subject to such reasonable variations therefrom as may be allowed in the rules and regulations made under this Article: Provided, that any farm product may be packed for sale, offered for sale, or sold, without conforming to the standard for grade or other classification applicable thereto, if it is especially described as not graded or plainly marked as "Not graded." This proviso shall not apply to peaches. (It is the intent and purpose of this exemption to exempt peaches from the requirements of Article 17 of Chapter 106 that ungraded peaches, when sold or offered for sale, shall be marked "ungraded," "field run," "not graded," "grade not determined" or "unclassified," or words of similar import.) The Board of Agriculture, or the Commissioner of Agriculture, and their authorized agents, are authorized to issue "stop-sale" orders which shall prohibit further sale of the products if they have reason to believe such products are being offered, or exposed, for sale in violation of any of the provisions of this Article until the law has been complied with or said violations otherwise legally disposed of.

Whenever any standard for an open or closed receptacle for a farm product shall be made effective under this Article no person shall pack for sale in and deliver in a receptacle, or sell in and deliver in a receptacle, any such farm product to which such standard is applicable, unless the receptacle conforms to the standard, subject to such variations therefrom as may be allowed in the rules and regulations made under this Article, or unless the receptacle be of a capacity twenty-five percent (25%) less than the capacity of the minimum standard receptacle for the product: Provided, that any receptacle for such farm product of a capacity within twenty-five percent (25%) of, or larger than, the minimum standard receptacle for the product may be used if it be specifically described as not a standard size, or be conspicuously marked with the phrase, "Not standard size," in addition to any other marking which may be prescribed for such receptacles under authority given by this Article.

Whenever any requirement for marking a receptacle for a farm product shall have been made effective under this Article no person shall sell and deliver in this State any such farm product in a receptacle to which such requirement is applicable unless the receptacle be marked according to such requirements. (1919, c. 325, s. 5; C.S., s. 4785; 1943, c. 483; 1969, c. 849.)
