§ 111-12.1. Acceptance of private contributions for particular facilities authorized.

In addition to other powers and duties granted it by law, the Department of Health and Human Services is hereby authorized to accept contributions of funds made by any private individual, agency or organization even though a condition of the contribution may be that the funds be utilized for the establishment of a particular public or private nonprofit workshop, rehabilitation center or other facility established for the purpose of providing training or employment for eligible blind persons.
