

**§ 115C-375.2. Possession and self-administration of asthma medication by students with asthma or students subject to anaphylactic reactions, or both.**

(a) Local boards of education shall adopt a policy authorizing a student with asthma or a student subject to anaphylactic reactions, or both, to possess and self-administer asthma medication on school property during the school day, at school-sponsored activities, or while in transit to or from school or school-sponsored events. As used in this section, "asthma medication" means a medicine prescribed for the treatment of asthma or anaphylactic reactions and includes a prescribed asthma inhaler or epinephrine auto-injector. The policy shall include a requirement that the student's parent or guardian provide to the school:

- (1) Written authorization from the student's parent or guardian for the student to possess and self-administer asthma medication.
- (2) A written statement from the student's health care practitioner verifying that the student has asthma or an allergy that could result in an anaphylactic reaction, or both, and that the health care practitioner prescribed medication for use on school property during the school day, at school-sponsored activities, or while in transit to or from school or school-sponsored events.
- (3) A written statement from the student's health care practitioner who prescribed the asthma medication that the student understands, has been instructed in self-administration of the asthma medication, and has demonstrated the skill level necessary to use the asthma medication and any device that is necessary to administer the asthma medication.
- (4) A written treatment plan and written emergency protocol formulated by the health care practitioner who prescribed the medicine for managing the student's asthma or anaphylaxis episodes and for medication use by the student.
- (5) A statement provided by the school and signed by the student's parent or guardian acknowledging that the local school administrative unit and its employees and agents are not liable for an injury arising from a student's possession and self-administration of asthma medication.
- (6) Other requirements necessary to comply with State and federal laws.

(b) The student must demonstrate to the school nurse, or the nurse's designee, the skill level necessary to use the asthma medication and any device that is necessary to administer the medication.

(c) The student's parent or guardian shall provide to the school backup asthma medication that shall be kept at the student's school in a location to which the student has immediate access in the event of an asthma or anaphylaxis emergency.

(d) Information provided to the school by the student's parent or guardian shall be kept on file at the student's school in a location easily accessible in the event of an asthma or anaphylaxis emergency.

(e) If a student uses asthma medication prescribed for the student in a manner other than as prescribed, a school may impose on the student disciplinary action according to the school's disciplinary policy. A school may not impose disciplinary action that limits or restricts the student's immediate access to the asthma medication.

(f) The requirement that permission granted for a student to possess and self-administer asthma medication shall be effective only for the same school and for 365 calendar days and must be renewed annually.

(g) No local board of education, nor its members, employees, designees, agents, or volunteers, shall be liable in civil damages to any party for any act authorized by this section,

or for any omission relating to that act, unless that act or omission amounts to gross negligence, wanton conduct, or intentional wrongdoing. (2005-22, s. 1; 2006-264, s. 57(b).)
