Article 23.
State Education Assistance.

Part 1. State Education Assistance Authority.

§ 116-201. Purpose and definitions.
(a) The purpose of this Article is to authorize a system of financial assistance, consisting of grants, loans, work-study or other employment, and other aids, to assist qualified students to enable them to obtain an education beyond the high school level by attending public or private educational institutions. The General Assembly has found and hereby declares that it is in the public interest and essential to the welfare and well-being of the State and to the proper growth and development of the State to foster and provide financial assistance to properly qualified students in order to help them to obtain an education beyond the high school level. The General Assembly has further found that many students who are fully qualified to enroll in appropriate educational institutions for furthering their education beyond the high school level lack the financial means and are unable, without financial assistance as authorized under this Article, to pay the cost of such education, with a consequent irreparable loss to the State of valuable talents vital to its welfare. The General Assembly has determined that the establishment of a proper system of financial assistance for such objective purpose serves a public purpose and is fully consistent with the long established policy of the State to encourage, promote and assist education to enhance economic development.
