

§ 130A-130. Duties of local health departments.

Local health departments shall provide sickle cell syndrome testing and counseling at no cost to persons requesting these services. If an individual is found to have any aspect of sickle cell syndrome, the local health department shall inform the individual to that effect. The State Laboratory of Public Health shall, upon request, provide a person's sickle cell screening test results to any local health department or Sickle Cell Program contracting agency which has been requested to provide sickle cell services to that person. (1987, c. 822, s. 2.)
