§ 159-56. Publication of bond order as introduced.

After the introduction of the bond order, the clerk shall publish it once with the following statement appended:

"The foregoing order has been introduced and a sworn statement of debt has been filed under the Local Government Bond Act showing the appraised value of the [issuing unit] to be $ ______ and the net debt thereof, including the proposed bonds, to be $ ______. The finance officer of the [issuing unit] has filed a statement estimating that the total amount of interest that will be paid on the bonds over the expected term of the bonds, if issued, is $ ______. The estimate is preliminary, is for general informational purposes only, and may differ from the actual interest paid on the bonds. A tax will [may] be levied to pay the principal of and interest on the bonds if they are issued. Anyone who wishes to be heard on the questions of the validity of the bond order and the advisability of issuing the bonds may appear at a public hearing or an adjournment thereof to be held at ________.

Clerk"

The publication may include a summary of the assumptions upon which the estimate of the total amount of interest that will be paid on the bonds over the expected term of the bonds, if issued, is based, and may further state that there is no assurance that the circumstances included in the assumptions will occur, that the occurrence of certain of the assumptions is beyond the control of the issuing unit, and that differences between the actual circumstances at the time the bonds are issued from the assumptions included in the estimate could result in significant differences between the estimated interest and the actual interest on the bonds. The statement may include additional qualifications as the unit deems appropriate. The validity of bonds authorized to be issued pursuant to this act is not subject to challenge on the grounds that the actual interest cost of the bonds when issued is different than the amount set forth in the estimate referenced in the publication of the bond order as introduced.
