§ 74-24.4. Safety and health standards.

(a) The Commissioner shall develop, adopt, revise, and promulgate safety and health standards for the purpose of the protection of life, the promotion of safety and health, and the prevention of "accidents" in mines which are subject to this Article. In the development of safety and health standards, the Commissioner shall consult with interested federal agencies, appropriate representatives of other State agencies, appropriate representatives of mine operators and miners, and other interested persons and organizations whose participation would further the purposes of this Article.

(b) In developing and promulgating safety standards pursuant to this section, the Commissioner shall include standards with respect to the training of miners in first aid, safety, the proper use of rescue equipment available within mines, and periodic evacuation drills and disaster procedure training.

(c) The State Health Director shall have primary responsibility for research and the recommendation of health standards to the Commissioner to effectuate the purposes of this Article, and nothing in this subsection shall affect the authority of the Commissioner with respect to the promulgation and enforcement of both safety and health standards.

(d) The procedures utilized for the adoption and promulgation of safety and health standards, including notice and public hearings, shall be in accordance with the Administrative Procedure Act as set out in Chapter 150B of the General Statutes. (1975, c. 206, s. 4; 1989 (Reg. Sess., 1990), c. 1004, ss. 52, 53; 1993, c. 513, s. 8; 2021-82, s. 1(b).)
