H44 - Local Government Regulatory Reform 2015, Sec. 6: Preaudit Certifications (SL 2015-246)

Obligations incurred by a local government subject to the Local Government Budget and Fiscal Control Act and by a local board of education subject to the School Budget and Fiscal Control Act accounted for in a fund included in the budget ordinance may not be incurred unless the budget ordinance includes an appropriation authorizing the obligation and an unencumbered balance remains sufficient to pay in the current fiscal year for that amount. For written contracts, each must be certified by the finance officer, or a duly appointed deputy finance officer, to that effect, and is often called a "preaudit" certification. Sec. 6 of S.L. 2015-246 updates that statutory requirement to reflect advances in technology that allow for credit cards, gas cards, procurement cards, and other means of remitting payment for obligations.

This section became effective October 1, 2015, and applies to expenditures incurred on or after that date.

This subsection became effective July 1, 2015, and applies to motor fuel excise tax revenue collected on or after that date.
- Effective June 30, 2016, amends the statutes that allocate revenue among various funds and accounts to repeal the amount of motor fuel excise tax revenue allocated to the Noncommercial Leaking Petroleum Underground Storage Tank Cleanup Fund.

This section became effective September 18, 2015.

H97 - 2015 Appropriations Act, Sec. 29.34A: Adjust Maximum Highway Use Tax Imposed for Certain Motor Vehicles (SL 2015-241)

Sec. 29.34A of S.L. 2015-241, as amended by Sec. 10.1 of S.L. 2015-268, increases the maximum highway use tax imposed for certain motor vehicles as follows:

- Class A or Class B Commercial Motor Vehicles. From \$1,000 to \$2,000.
- Recreational Vehicle. From \$1,500 to \$2,000.
- Out-of-State Motor Vehicles. From \$150 to \$250.

H97 - 2015 Appropriations Act, Sec. 32.19: Local Sales Tax Distribution (SL 2015-241)

Sec. 32.19 of S.L. 2015-241, as amended by Sec. 10.1(e1) of S.L. 2015-268, carves out a portion of the local option sales tax revenue and distributes that amount to the counties whose revenue-raising capacity from the local option sales taxes is less than it would be if the distribution of the revenue from the taxes was made on a per capita basis. The carve-out amount to be distributed in fiscal year 2016-2017 is \$84.8 million. This amount is to be adjusted each fiscal year thereafter based upon the annual percentage change in the 2-cent local option sales taxes collected in the previous fiscal year. Seventy-nine counties will receive an allocation from the distribution. A county's allocation percentage is set by statute. The amount allocated to a county must be shared with the municipalities in that county. The General Assembly must periodically review the allocation percentages.

This section becomes effective July 1, 2016, and applies to local option sales and use taxes collected on or after that date and distributed to counties and cities on or after September 1, 2016.

2017. Increases the minimum franchise tax from \$35 to \$200 and increases the maximum franchise tax on holding companies from \$75,000 to \$150,000; both rate changes are effective for franchise tax returns due in 2017.

- Repeals the State privilege tax on banks, effective June 30, 2016.

H97 - 2015 Appropriations Act, Sec. 15.16B Municipal Service Districts/Contracts with Private Agency/Taxes/Study (SL 2015-241)

With respect to municipal service districts established by cities, Sec. 15.16B of S.L. 2015-241 does all of the following:

For all municipal service districts, the section requires the city to develop long-range plans and goals, set the tax rate in accordance with those plans and goals, and use the moneys collected for the purpose of those plans and goals. This provision becomes effective for tax imposed for taxable years beginning on or after January 1, 2016.

For municipal service districts created for historical districts, downtown revitalization, and urban revitalization, this section sets forth the following requirements on contracts with private agencies:

- Prior to entering into the contract the city must:
 - Solicit input from the residents and property owners as to the needs of the service district.
 - Use a bid process to determine which private agency is best suited to achieve the needs of the service district. If the city determines that a multiyear contract with a private agency is in the best interest of the city and the service district, the city may enter into a multiyear contract not to exceed five years in length.
 - Hold a public hearing.
- The city must require the private agency to report annually to the city, by presentation in a city council meeting and in written report, regarding the needs of the service district, completed projects, and pending projects.
- The contract is to specify the scope of services to be provided by the private agency. Any changes to the scope of services must be approved by the city council.

This provision became effective October 1, 2015, and applies to contracts entered into on or after that date.

Effective September 18, 2015, authorizes the Legislative Research Commission to study the feasibility of allowing property owners within a municipal service district to petition for removal from that municipal service district, and submit a report to the 2016 Regular Session of the 2015 General Assembly.

- Allows unlimited medical deductions on Schedule A retroactive to January 1, 2015, to the extent a taxpayer can take the deduction at the federal level.

H97 - 2015 Appropriations Act, Sec. 29.27A: Adjust Municipal Vehicle Tax (SL 2015-241)

Sec. 29.27A of S.L. 2015-241 authorizes an annual municipal vehicle tax of \$30 per vehicle resident in the city or town and places any local authorizations under the \$30 cap. This section authorizes the tax for the following purposes:

- General purpose. Maximum \$5 for any lawful purpose.
- Public transportation. Maximum \$5 for financing, constructing, operating, and maintaining local public transportation systems if the municipality operates a public transportation system as defined in G.S. 105-550.
- Public streets. Any of the \$30 authorization remaining for maintaining, repairing, constructing, reconstructing, widening, or improving public streets that are not a State highway.

This section becomes effective July 1, 2016.

H97 - 2015 Appropriations Act, Sec. 32.3: Historic Preservation Tax Credit (SL 2015-241)

Sec. 32.3 of S.L. 2015-241, as amended by Sec. 54.5 of S.L. 2015-264 and Sec. 10.1(b) of S.L. 2015-268, establishes a temporary tax credit for historic rehabilitation as described below. The tax credit becomes effective January 1, 2016, and applies to qualified rehabilitation expenditures incurred on or after that date. The credit will expire for expenses incurred on or after January 1, 2020.

- Income-Producing Property. - A taxpayer is allowed a tax credit, capped at \$4.5 million, that is equal to 15% of the first \$10 million in qualified rehabilitation expenditures for an income-producing historic structure, plus 10% of the next \$10 million, plus 5% for the first \$20 million if the structure is located in a Tier 1 or 2 area, plus 5% for the first \$20 million if the structure is located on an eligible targeted investment site.
- Non-Income Producing Property. - A taxpayer is allowed a tax credit, capped at \$22,500, that is equal to 15% of expenses to rehabilitate a building listed in the National Register of Historic Places or certified by the State Historic Preservation Officer as contributing to the historic significance of a National Register Historic District or a locally designated historic district certified by the United States Department of the Interior. The taxpayer must have at least \$10,000 in expenses to qualify for the credit.

The credit also applies for certain 2014 and 2015 expenditures. Section 54.5 of S.L. 2015-264 (General Statutes Commission Technical Corrections Act of 2015) allows a taxpayer to claim the credit for expenses incurred in 2014 and 2015 if: (i) the historic structure is located in a Tier 1 or Tier 2 county; (ii) the structure is owned by a city; (iii) the rehabilitation activity commenced in 2014; and (iv) a certificate of occupancy is issued on or before December 31, 2015.

Finally, this section also modifies the expiration of the Mill Rehabilitation Tax Credit, which expired on January 1, 2015. Under prior law, as long as a taxpayer obtained an eligibility certification prior to the expiration date, the taxpayer could claim the credit whenever the project was ultimately placed in service.

This section provides that eligibility certifications will expire on January 1, 2023, so the availability of the credit is not as open-ended.

Except for a change in reporting requirements and the increase in the amount that may be committed, both of which became effective September 30, 2015, the remainder of this Part became effective October 1, 2015.
- **One NC.** - Section 2 of the act modifies the local match requirements to a tiered requirement: 3 State dollars for 1 local dollar for tier 1; 2 State dollars for 1 local dollar for tier 2; and an even local match for tier 3. This change became effective September 30, 2015.

This Part becomes effective March 1, 2016.
- **Extend Sales Tax Preference for Motorsports Parts and Fuel.** - Part VI, as amended by S.L. 2015-261, extends the current sales tax preferences for motorsports from January 1, 2016, to January 1, 2020, and clarifies the current sales tax on race engines and service contracts on items used by a professional motorsports racing team.

Beginning January 1, 2017, the rate will be 34 cpg multiplied by a percentage reflecting population change and the annual change in the Energy component of the Consumer Price Index for all Urban Consumers as produced by the U.S. Bureau of Labor Statistics.
- Replaces the two 6-month base periods used in determining the gas tax rate with a single 12-month base period.
- Makes \$3.35 million and \$10.1 million reductions in the Highway Trust Fund and Highway Fund budgets for the 2014-2015 fiscal year.

- Provides that, for purposes of present-use value, the commercial production or growing of animals includes the rearing, feeding, training, caring, and managing of horses.
- Provides that when a tax assessor is determining whether a business entity applicant for present-use value has farming as its principal business, there is a rebuttable presumption that farming is the business entity's primary business if the applicant has been approved for present value taxation for a qualifying property in another county. Any determination about the applicant's eligibility does not affect the determination of whether the individual parcel of land meets the classifications for agricultural, horticultural, or forest land pursuant to G.S. 105-277.3. Further, if the assessor is able to rebut the presumption, this does not invalidate a determination that the applicant's principal business is farming agricultural land, horticultural land, or forestland in the other county.
- Effective September 30, 2015, directs the Department of Revenue to annually publish a present-use value program guide and make the guide available on its Web site. Tax assessors must adhere to the Department's guide when making decisions regarding the qualifications or appraisal of property for the present-use value taxation program.
