CHAPTER 348.

AN ACT TO PROVIDE FOR THE DRAINAGE OF CERTAIN PORTIONS OF MUDDY CREEK AND SOUTH MUDDY CREEK IN BURKE AND McDOWELL COUNTIES.

Preamble: need for drainage.

Whereas there are many acres of land on Muddy Creek and South Muddy Creek and their tributaries, in McDowell and Burke counties, that have been, are now, and are liable to be greatly damaged and diminished by reason of the shallow and narrow channel of said creek and the filling of same by reason of the limited and sluggish flow of said creek and improper drainage; and whereas, by reason of same, the bottom-lands overflow and become wet and soggy, and nonproductive; and whereas a conservative assessment upon the acreage to be benefited would make a fund sufficient, if wisely and judiciously expended, to lower the channel and bed of said stream, by excavation, the widening and changing the bed of the creek, and removing the obstructions,

Preamble: cost and advantages of draining.

giving said creeks a better fall and outlet for the water, would thereby greatly remedy and improve the condition of the land, dry and reclaim the wet and overflowed lands, making same productive to cultivation, increasing its value, and more especially improve the sanitary condition and health of the public and community in general; and whereas it is impracticable to do this much needed work without legislative aid, whereby there can be concentrated effort equally and mutually beneficial to all the owners: therefore,

Preamble: legislation necessary.

The General Assembly of North Carolina do enact:

SECTION 1. That a commission of ten men, to wit, J. D. Patten, A. S. Abernethy, J. A. Gettys, T. Y. Biggerstaff, James Gallion, J. S. Dysart, G. B. Mangum, L. L. Lail, William Hempille, and T. A. Seals, and their successors in office, be and they are hereby constituted and appointed a commission for the purpose of carrying out the work suggested in the preamble of this act, to be known as "Muddy Creek Drainage Commission," and in that name they shall be a corporation with power to have a corporate seal, sue and be sued, contract and be contracted with, and generally to do whatever may be necessary to be done in order to make effectual the drainage of Muddy Creek and South Muddy Creek and their tributaries, in the counties of McDowell and Burke, in the State of North Carolina, between Daves' Ford on South Muddy Creek in McDowell County and the mouth of Muddy Creek at the Catawba River in Burke County, including the shoals in said river immediately below the mouth of said creek, which said power and authority shall embrace the right to purchase all necessary machinery, dredging machine, tools, appliances, and other material to carry out said work, or to rent, lease, or hire same, and to issue the note, obligation, or bond of said corporation or commission in an amount not exceeding twelve thousand dollars, payable in amounts to be fixed by said commission and at intervals not exceeding ten years, to be fixed by said corporation or commission, and said commission or corporation shall be possessed of all such powers as are usually granted and pertain to corporations.

The said commission shall make a just estimate of all lands along Muddy and South Muddy creeks and their tributaries, both in McDowell and Burke counties, and within the terminal points mentioned and designated in section one of this act that will in their judgment be benefited, either generally or specially, by the work proposed and contemplated to be done, and make a list of the owners of said lands, with the estimated number of acres to be benefited by each owner; and in making said estimate, the said commission is authorized to take into consideration and estimate all lands lying within one-half mile of the center of Muddy and South Muddy creeks, the measurement to be air line and at right angles to center of said creeks upon either and both sides of said creeks, and upon tributaries of said creeks, extending up said tributaries from points where same empty into said creeks for a distance of one and a half miles, and all lands upon said tributaries and within one-fourth mile of the center of said tributaries measured at right angles and air line from center of said tributary streams on either and both sides of same shall be measured and estimated, and said commission shall make a just estimate of all lands on said creeks and their tributaries, within the radius prescribed and limits herein defined, as in their judgment will be benefited, either generally or specially, and both, by the work to be done, and make a list of the owners of said lands, with the number of acres to be benefited by each owner, and in making said estimate may take into consideration the special benefits to any one or more landowners to be derived by same, and assess said landowner or owners a larger amount in accordance with the special benefits. Said commission is further authorized to employ a competent engineer to do such surveying as is necessary and desired by said commission and as may be required by this act. - SEC. 4. It shall be the further duty of said commission to view and personally examine the land embraced within the radius mentioned in paragraph three and classify it with reference to the benefit it will receive from the canaling and improvement and work contemplated in this act, and the said commission will take into consideration the degree of wetness of the lands, its proximity to the creeks, their natural outlet and the fertility of the soil, which shall be considered in determining the amount of benefits it will receive by the contemplated work and improvements. The land benefited shall be separated into five classes: the land receiving the highest benefit shall be marked "Class A"; that receiving the next highest benefit, "Class B"; that receiving the next highest benefit, "Class C"; that receiving the next highest benefit,

“Class D”; and that receiving the smallest benefit, “Class E.” The holdings of any one landowner need not necessarily be all in one class, but the number of acres in each class shall be ascertained, though its boundary need not be marked on the ground or shown on any map. The total number of acres owned by one person in each class and the total number of acres benefited shall be determined. The total number of acres of each class in the entire district shall be estimated, as nearly as practicable, and presented in tabulated form. The scale of assessment upon the several classes of land returned by the commissioners or found by them shall be in the ratio of five, four, three, two, and one; that is to say, as often as five mills per acre is assessed against the lands in “Class A,” four mills per acre be assessed against lands in “Class B,” three mills per acre be assessed against lands in “Class C,” two mills per acre in “Class D,” and one mill per acre in “Class E.” This shall be the basis of the assessment of benefits to the lands. That after said commission has assessed the benefits to the lands, they shall give notice at the courthouse door in Morganton, Burke County, and by placing notices at five points along the line of said creeks in Burke County and at five points along said creeks in McDowell County, appointing a day and time on which said board of commissioners will meet at the courthouse in Marion, McDowell County, and at which day and time said commissioners will meet at the courthouse door in Morganton, Burke County, to hear any and all complaints of the landowners of the assessments made against said lands, which said notice shall give ten days time or notice of said meetings, at which time the said commission, at the day fixed to meet at the courthouse in Marion, McDowell County, will sit as a body to hear and determine all complaints that may be filed with them as to all lands assessed lying and being in McDowell County, and shall have the right to hear any and all evidence introduced and offered in said matter and determine the proper assessment against said complainants and fix the assessments against all the lands in McDowell County within the radius mentioned and set forth in section three of this act; and at the time and day fixed by said notices of the meeting of the commission at the courthouse in Morganton, Burke County, and sit as a body to hear and determine all complaints that may be filed with them, as to all lands assessed lying and being in Burke County, and shall have the right to hear any and all evidence introduced and offered in said matter and determine the proper assessment against said complainants and fix the assessment against all the lands in Burke County within the radius mentioned and set forth in section three of this act, lying and being in Burke County; and said commission shall have the power and right, while sitting in either McDowell or Burke County, at said meetings, to issue subpoenas for witnesses and hear their evidence and punish for contempt of their pro-

- Assessment roll. SEC. 5. After the classification of the land and the ratio of the assessment of the different classes to be made thereon has been made, formulated, and tabulated by the commission, the said commission shall prepare an assessment roll giving a description of all the land ascertained from the public records and the amount of assessment against each of the several tracts of land. In preparing this assessment roll the boards shall ascertain the total cost of the improvements, including the damages awarded and to be paid to the owners of land, and all incidental expenses, and the remainder shall be the amount to be borne and paid by the lands benefited. This amount shall be assessed against the several tracts of land according to the benefits received, as shown by the classifications and ratio of assessment made by the commission.
- Matters included in assessment rolls. This drainage roll, showing the amount assessed and to be paid by the various and several tracts of land by the owners thereof, shall be made in duplicate, signed by the chairman and secretary and one copy filed with the secretary as part of the records of his office and the other delivered to the sheriff or other county tax collector of the counties of McDowell and Burke. The said commission shall make two separate rolls and two separate copies, one set of which shall include and embrace all the lands within McDowell County and the other set shall include and embrace all the lands within Burke County, which said rolls shall show the names of the owners of lands, the roll for McDowell County embracing all landowners along said creeks and within the terminal points designated and within McDowell County, and the other roll shall include and embrace all landowners along the said creeks in Burke County; said rolls shall also give the number of acres of land upon which assessment has been made and the amount due by the said landowner, and there shall be appended an order by said commission upon the list and assessment roll of McDowell County landowners, as well as upon the roll and assessment of Burke landowners, an order by said commission to collect the said assessments and amounts so certified, and same shall have the force and effect of a judgment, as in the case of State

and county taxes, and shall be collected by the sheriff or other tax collector of the respective counties of McDowell and Burke in the same manner, with the same power, same responsibilities, and settled in the same manner as taxes are required to be collected and settled under the general laws, except the same shall be due and payable from date of said assessment roll being delivered to the sheriff or other tax collector of the said respective counties for collection. After the said commission has assessed the several tracts of land according to the benefits received, as shown by the classifications and ratio of assessments as made by the said commission, it shall have the right to levy an assessment upon said benefits in an amount annually not exceeding five dollars per acre, until the whole thereof is paid or said contemplated improvements completed, or if the total cost of the work is less than five dollars per acre on all the lands in the district, the assessment made against the several tracts can be collected in one installment, in the discretion of the commission, or in two or three installments, by the officers as herein directed in the same manner as State and county taxes are collected and payable. In case the total assessment exceeds the average of five dollars per acre, or even one dollar per acre, or fifty cents per acre, the said Muddy and South Muddy Creeks Drainage Commission may give notice of three weeks by publication in some newspaper in McDowell and Burke counties, North Carolina, and by posting written notices at the courthouse door in said counties and five conspicuous places in said drainage district, that they propose to issue bonds for the construction of said improvement, giving the amount of bonds to be issued, the rate of interest they are to bear, and the time when payable, not exceeding in amount twelve thousand dollars nor exceeding the amount of assessed benefit for said work and improvements contemplated, which said issue of bonds shall be for a period from date of same not more than ten years, bearing six per centum per annum interest. Any landowner having lands assessed in the district and not wanting to pay interest on the bonds may, within thirty days after the publication of said notice, pay the treasurer the full amount of his assessments and have his land released therefrom. Neglect to pay the same to the treasurer within said time shall be deemed as consenting to the issuing of said bonds, and in consideration of the right to pay his assessments he thereby waives his right to any defense against collection of said assessment because of any irregularity, illegality, or defect prior to that time, except in case of an appeal, as hereinbefore provided, which is not affected by this waiver. The term "person" as used in this act includes firm, company, or corporation. At the expiration of thirty days after the publication, the said creeks drainage commission may issue bonds for the full amount of the assessments not paid into the treasury, with the interest thereon, costs of collection, or other incidental expenses,

The county board of elections may require a certificate of the Secretary of State to be produced by any party desiring to hold a primary election, to the effect that said party cast at the preceding election for Governor at least ten thousand ballots for Governor, as herein required. In the event that any political party shall have no chairman of the county executive committee of the party, the notice herein required to the county board of elections may be given by any other person thereto duly authorized by that party, or by petition of at least one hundred and fifty qualified voters, certifying that they belong to such party and desire that a primary election be held therefor.

SEC. 3. At the time of fixing the time and place of holding such primary elections the county board of elections shall appoint three managers each therefor, on behalf of every political party for which such elections are held; the said managers, with respect to each party, to be members of the political party for which the primary election is held, and distributed, as far as may be, amongst the several factions of that party, if such factions exist, or amongst the friends of the opposing candidates: *Provided*, that if in any precinct no members can be found of the political party for which the primary election is held, of which fact the county board of elections shall judge, managers may be appointed at the discretion of the county board of elections; but no person shall be compelled to serve as manager of an election for a political party to which he does not belong; and if no persons can be found to act as managers of any primary election because of a want of members of that party in the precinct, the election shall be omitted. In case one or more of the managers of the election shall fail to attend at the time fixed for such election, the vacancy so caused shall be filled by the remaining manager or managers of the primary for the party for which such manager or managers were appointed. The chairman of the county executive committee or managing body of the political party desiring to hold a primary election shall recommend to the county board of elections suitable persons to be appointed as managers for the various precincts.

Any voter may be challenged by any other qualified voter, the grounds of the challenge being given; and a written memorandum, containing the name or names of the persons challenged, and the grounds therefor, given to the managers during the election or prior thereto, shall be sufficient to constitute a challenge. The managers shall decide all challenges, and for such purpose may permit witnesses inside the prohibited spaces of the polling place while such matter is pending.
