State of North Carolina

In 1946 we issued an index of public-local and private legislation enacted between 1900 and 1945. That index has proved to be of invaluable assistance to legislators, lawyers, local officials, and the public generally by eliminating the need to search the index to each individual volume of the acts of the General Assembly in order to find local acts applicable to a particular county or city. Since the first volume appeared, we have kept a card file compiled from the indexes to each individual volume of the Session Laws beginning with the 1947 General Assembly. We are now pleased to present this additional volume covering sessions of the legislature from 1947 through 1967.

The index is presented alphabetically by counties. Within each county, the cities and towns therein are listed alphabetically. There is a separate index indicating the county in which the entries for each city and town will be found.

This volume is available in both casebound and paperback editions, and may be purchased from the Institute of Government, Box 990, Chapel Hill, N.C.

A large, stylized handwritten signature in dark ink, which appears to read "W. H. H. H. H.", is written over the text "Secretary of State".

Secretary of State

The Capitol
Raleigh

For many years the Institute of Government has had a continuing interest in indexing local acts of the General Assembly. In 1964 we published a catalogue of local acts covering each session of the colonial Assembly and the General Assembly from 1669 to 1961. That publication, however, only listed the acts by chapter number without indicating subject matter. We are therefore particularly pleased at the opportunity to publish this index which brings the Secretary of State's 1945 index forward through 1967. All of the index entries through the 1965 General Assembly were supplied by the Secretary of State. We have added entries for the 1967 session and the index of cities and towns.

A handwritten signature in dark ink, reading "John L. Dandridge". The signature is fluid and cursive, with a large initial "J" and a long, sweeping underline.

INDEX OF CITIES AND TOWNS

In the main index, cities and towns are listed under the county in which they are located. This index permits the searcher to find the county under which a particular city or town is listed, and also the page number on which the city's entries appear in both this volume and the 1900-1945 volume.
