

GENERAL ASSEMBLY OF NORTH CAROLINA
1991 SESSION

CHAPTER 25
HOUSE BILL 159

AN ACT TO PREVENT A MUNICIPAL ORDINANCE OR POLICY DIMINISHING
WATER OR SEWER SERVICES TO AN ANNEXED AREA WITHIN SIX
MONTHS OF NOTICE OF INTENT TO CONSIDER ANNEXATION.

The General Assembly of North Carolina enacts:

Section 1. G.S. 160A-35 reads as rewritten:

"§ 160A-35. Prerequisites to annexation; ability to serve; report and plans.

(a) A municipality exercising authority under this Part shall make plans for the extension of services to the area proposed to be annexed and shall, prior to the public hearing provided for in G.S. 160A-37, prepare a report setting forth such plans to provide services to such area. The report shall include:

- (1) A map or maps of the municipality and adjacent territory to show the following information:
 - a. The present and proposed boundaries of the municipality.
 - b. The proposed extensions of water mains and sewer outfalls to serve the annexed area, if such utilities are operated by the municipality. The water and sewer map must bear the seal of a registered professional engineer or a licensed surveyor.
- (2) A statement showing that the area to be annexed meets the requirements of G.S. 160A-36.
- (3) A statement setting forth the plans of the municipality for extending to the area to be annexed each major municipal service performed within the municipality at the time of annexation. Specifically, such plans shall:
 - a. Provide for extending police protection, fire protection, solid waste collection and street maintenance services to the area to be annexed on the date of annexation on substantially the same basis and in the same manner as such services are provided within the rest of the municipality prior to annexation. A contract with a rural fire department to provide fire protection shall be an acceptable method of providing fire protection. If a water distribution system is not available in the area to be annexed, the plans must call for reasonably effective fire protection services until such time as waterlines are made available in such area under existing municipal policies for the extension of waterlines. A contract with a private firm to

provide solid waste collection services shall be an acceptable method of providing solid waste collection services.

- b. Provide for extension of water mains and sewer lines into the area to be annexed so that property owners in the area to be annexed will be able to secure public water and sewer services according to the policies in effect in such municipality for extending water and sewer lines to individual lots or subdivisions. If the municipality must, at its own expense, extend water and/or sewer mains into the area to be annexed before property owners in the area can, according to municipal policies, make such connection to such lines, then the plans must call for contracts to be let and construction to begin on such lines within one year following the effective date of annexation.
 - c. Set forth the method under which the municipality plans to finance extension of services into the area to be annexed.
- (4) A statement of the impact of the annexation on any rural fire department providing service in the area to be annexed and a statement of the impact of the annexation on fire protection and fire insurance rates in the area to be annexed, if the area where service is provided is in an insurance district designated under G.S. 153A-233, a rural fire protection district under Article 3A of Chapter 69 of the General Statutes, or a fire service district under Article 16 of Chapter 153A of the General Statutes. The rural fire department shall make available to the city not later than 30 days following a written request from the city all information in its possession or control, including but not limited to operational, financial and budgetary information, necessary for preparation of a statement of impact. The rural fire department forfeits its rights under G.S. 160A-37.1 and G.S. 160A-37.2 if it fails to make a good faith response within 45 days following receipt of the written request for information from the city, provided that the city's written request so states by specific reference to this section.

(b) No ordinance or policy substantially diminishing the financial participation of a municipality in the construction of water or sewer facilities required under this Article may apply to an area being annexed unless the ordinance or policy became effective at least 180 days prior to the date of adoption by the municipality of the resolution giving notice of intent to consider annexing the area under G.S. 160A-37(a)."

Sec. 2. G.S. 160A-47 reads as rewritten:

"§ 160A-47. Prerequisites to annexation; ability to serve; report and plans.

(a) A municipality exercising authority under this Part shall make plans for the extension of services to the area proposed to be annexed and shall, prior to the public hearing provided for in G.S. 160A-49, prepare a report setting forth such plans to provide services to such area. The report shall include:

- (1) A map or maps of the municipality and adjacent territory to show the following information:
 - a. The present and proposed boundaries of the municipality.
 - b. The present major trunk water mains and sewer interceptors and outfalls, and the proposed extensions of such mains and outfalls as required in subdivision (3) of this section. The water and sewer map must bear the seal of a registered professional engineer.
 - c. The general land use pattern in the area to be annexed.
- (2) A statement showing that the area to be annexed meets the requirements of G.S. 160A-48.
- (3) A statement setting forth the plans of the municipality for extending to the area to be annexed each major municipal service performed within the municipality at the time of annexation. Specifically, such plans shall:
 - a. Provide for extending police protection, fire protection, solid waste collection and street maintenance services to the area to be annexed on the date of annexation on substantially the same basis and in the same manner as such services are provided within the rest of the municipality prior to annexation. A contract with a rural fire department to provide fire protection shall be an acceptable method of providing fire protection. If a water distribution system is not available in the area to be annexed, the plans must call for reasonably effective fire protection services until such time as waterlines are made available in such area under existing municipal policies for the extension of waterlines. A contract with a private firm to provide solid waste collection services shall be an acceptable method of providing solid waste collection services.
 - b. Provide for extension of major trunk water mains and sewer outfall lines into the area to be annexed so that when such lines are constructed, property owners in the area to be annexed will be able to secure public water and sewer service, according to the policies in effect in such municipality for extending water and sewer lines to individual lots or subdivisions. If requested by the owner of an occupied dwelling unit or an operating commercial or industrial property in writing on a form provided by the municipality, which form acknowledges that such extension or extensions will be made according to the current financial policies of the municipality for making such extensions, and if such form is received by the city clerk not less than 30 days before adoption of the annexation ordinance, provide for extension of water and sewer lines to the property or to a point on a public street or road right-of-way adjacent to the

property according to the financial policies in effect in such municipality for extending water and sewer lines. If any such requests are timely made, the municipality shall at the time of adoption of the annexation ordinance amend its report and plan for services to reflect and accommodate such requests.

- c. If extension of major trunk water mains, sewer outfall lines, sewer lines and water lines is necessary, set forth a proposed timetable for construction of such mains, outfalls and lines as soon as possible following the effective date of annexation. In any event, the plans shall call for construction to be completed within two years of the effective date of annexation.
 - d. Set forth the method under which the municipality plans to finance extension of services into the area to be annexed.
- (4) A statement of the impact of the annexation on any rural fire department providing service in the area to be annexed and a statement of the impact of the annexation on fire protection and fire insurance rates in the area to be annexed, if the area where service is provided is in an insurance district designated under G.S. 153A-233, a rural fire protection district under Article 3A of Chapter 69 of the General Statutes, or a fire service district under Article 16 of Chapter 153A of the General Statutes. The rural fire department shall make available to the city not later than 30 days following a written request from the city all information in its possession or control, including but not limited to operational, financial and budgetary information, necessary for preparation of a statement of impact. The rural fire department forfeits its rights under G.S. 160A-49.1 and G.S. 160A-49.2 if it fails to make a good faith response within 45 days following receipt of the written request for information from the city, provided that the city's written request so states by specific reference to this section.

(b) No ordinance or policy substantially diminishing the financial participation of a municipality in the construction of water or sewer facilities required under this Article may apply to an area being annexed unless the ordinance or policy became effective at least 180 days prior to the date of adoption by the municipality of the resolution giving notice of intent to consider annexing the area under G.S. 160A-49(a)."

Sec. 3. This act is effective upon ratification and applies to resolutions of intent adopted on or after March 1, 1992.

In the General Assembly read three times and ratified this the 1st day of April, 1991.

James C. Gardner
