Referred to:

March 27, 1991

1 A BILL TO BE ENTITLED
2 AN ACT TO AMEND THE GENERAL STATUTES CONCERNING WATER
3 POLLUTION PERMITS.

4 The General Assembly of North Carolina enacts:

5 Section 1. G.S. 143-215.1 reads as rewritten:

6 "**§ 143-215.1. Control of sources of water pollution; permit required.**

7 (a) Activities for Which Permits Required. – No person shall do any of the
8 following things or carry out any of the following activities until or unless such person
9 shall have applied for and shall have received from the Commission a permit therefor
10 and shall have complied with such conditions, if any, as are prescribed by such permit:

- 11 (1) Make any outlets into the waters of the State;
12 (2) Construct or operate any sewer system, treatment works, or disposal
13 system within the State;
14 (3) Alter, extend, or change the construction or method of operation of any
15 sewer system, treatment works, or disposal system within the State;
16 (4) Increase the quantity of waste discharged through any outlet or
17 processed in any treatment works or disposal system to any extent
18 which would result in any violation of the effluent standards or
19 limitations established for any point source or which would adversely
20 affect the condition of the receiving waters to the extent of violating
21 any of the standards applicable to such water;

- 1 (5) Change the nature of the waste discharged through any disposal
2 system in any way which would exceed the effluent standards or
3 limitations established for any point source or which would adversely
4 affect the condition of the receiving waters in relation to any of the
5 standards applicable to such waters;
- 6 (6) Cause or permit any waste, directly or indirectly, to be discharged to or
7 in any manner intermixed with the waters of the State in violation of
8 the water quality standards applicable to the assigned classifications or
9 in violation of any effluent standards or limitations established for any
10 point source, unless allowed as a condition of any permit, special order
11 or other appropriate instrument issued or entered into by the
12 Commission under the provisions of this Article;
- 13 (7) Cause or permit any wastes for which pretreatment is required by
14 pretreatment standards to be discharged, directly or indirectly, from a
15 pretreatment facility to any disposal system or to alter, extend or
16 change the construction or method of operation or increase the
17 quantity or change the nature of the waste discharged from or
18 processed in such facility;
- 19 (8) Enter into a contract for the construction and installation of any outlet,
20 sewer system, treatment works, pretreatment facility or disposal
21 system or for the alteration or extension of any such facilities;
- 22 (9) Dispose of sludge resulting from the operation of a treatment works,
23 including the removal of in-place sewage sludge from one location and
24 its deposit at another location, consistent with the requirement of the
25 Resource Conservation and Recovery Act and regulations promulgated
26 pursuant thereto;
- 27 (10) Cause or permit any pollutant to enter into a defined managed area of
28 the State's waters for the maintenance or production of harvestable
29 freshwater, estuarine, or marine plants or ~~animals~~-animals;
- 30 (11) Cause or permit discharges regulated under G.S. 143-214.7 which
31 result in water pollution.

32 In the event that both effluent standards or limitations and classifications and water
33 quality standards are applicable to any point source or sources and to the waters to
34 which they discharge, the more stringent among the standards established by the
35 Commission shall be applicable and controlling.

36 In connection with the above, no such permit shall be granted for the disposal of
37 waste in waters classified as sources of public water supply where the head of the
38 agency which administers the public water supply program pursuant to Article 10 of
39 Chapter 130A of the General Statutes, after review of the plans and specifications for
40 the proposed disposal facility, determines and advises the Commission that such
41 disposal is sufficiently close to the intake works or proposed intake works of a public
42 water supply as to have an adverse effect on the public health.

43 In any case where the Commission denies a permit, it shall state in writing the
44 reason for such denial and shall also state the Commission's estimate of the changes in

1 the applicant's proposed activities or plans which will be required in order that the
2 applicant may obtain a permit.

3 (b) Commission's Power as to Permits. –

4 (1) The Commission shall act on all permits so as to prevent, so far as
5 reasonably possible, considering relevant standards under State and
6 federal laws, any significant increase in pollution of the waters of the
7 State from any new or enlarged sources. No permit shall be denied
8 and no condition shall be attached to the permit, except when the
9 Commission finds such denial or such conditions necessary to
10 effectuate the purposes of this Article.

11 (2) The Commission shall also act on all permits so as to prevent violation
12 of water quality standards due to the cumulative effects of permit
13 decisions. Cumulative effects are impacts attributable to the collective
14 effects of a number of projects and include the effects of additional
15 projects similar to the requested permit in areas available for
16 development in the vicinity. All permit decisions shall require that the
17 practicable waste treatment and disposal alternative with the least
18 adverse impact on the environment be utilized.

19 (3) General permits may be issued under rules adopted pursuant to
20 Chapter 150B of the General Statutes. Such rules may provide that
21 minor activities may occur under a general permit issued in accordance
22 with conditions set out in such rules. All persons covered under
23 general permits shall be subject to all enforcement procedures and
24 remedies applicable under this Article.

25 (4) The Commission shall have the power:

26 a. To grant a permit with such conditions attached as the
27 Commission believes necessary to achieve the purposes of this
28 Article.

29 b. To require that an applicant satisfy the Department that the
30 applicant, or any parent, subsidiary, or other affiliate of the
31 applicant or parent:

32 1. Is financially qualified to carry out the activity for which
33 the permit is required under subsection (a) of this
34 section; and

35 2. Has substantially complied with the effluent standards
36 and limitations and waste management treatment
37 practices applicable to any activity in which the
38 applicant has previously engaged, and has been in
39 substantial compliance with other federal and state laws,
40 regulations, and rules for the protection of the
41 environment.

42 As used in this subdivision, the words 'affiliate,' 'parent,' and
43 'subsidiary' have the same meaning as in 17 Code of Federal
44 Regulations § 240.12b-2 (1 April 1990 Edition).

- 1 c. To modify or revoke any permit upon not less than 60 days'
2 written notice to any person affected.
- 3 d. To designate certain classes of minor activities for which a
4 general permit may be issued, after considering:
5 1. The environmental impact of the activities;
6 2. How often the activities are carried out;
7 3. The need for individual permit oversight; and
8 4. The need for public review and comment on individual
9 permits.
- 10 e. To designate certain classes of minor activities for which:
11 1. Performance conditions may be established by rule; and
12 2. Individual or general permits are not required.
- 13 ~~(b1) The Commission shall adopt rules which exempt the filter backwash facilities~~
14 ~~of swimming pools and spas from the:~~
- 15 ~~(1) Application and notice requirements of this section;~~
16 ~~(2) Reporting requirements of G.S. 143-215.65;~~
17 ~~(3) Monitoring requirements of G.S. 143-215.66; and~~
18 ~~(4) Requirements of subsection (a) of this section that the Department~~
19 ~~review and approve of each individual facility.~~
- 20 (c) Applications for Permits and Renewals for Facilities Discharging to the
21 Surface Waters. –
- 22 (1) All applications for permits and for renewal of existing permits for
23 outlets and point sources and for treatment works and disposal systems
24 discharging to the surface waters of the State shall be in writing, and
25 the Commission may prescribe the form of such applications. All
26 applications shall be filed with the Commission at least 180 days in
27 advance of the date on which it is desired to commence the discharge
28 of wastes or the date on which an existing permit expires, as the case
29 may be. The Commission shall act on a permit application as quickly
30 as possible. The Commission may conduct any inquiry or investigation
31 it considers necessary before acting on an application and may require
32 an applicant to submit plans, specifications, and other information the
33 Commission considers necessary to evaluate the application.
- 34 (2) a. The Department shall refer each application for permit, or renewal
35 of an existing permit, for outlets and point sources and treatment
36 works and disposal systems discharging to the surface waters of the
37 State to its staff for written evaluation and proposed determination
38 with regard to issuance or denial of the permit. If the Commission
39 concurs in the proposed determination, it shall give notice of intent to
40 issue or deny the permit, along with any other data that the
41 Commission may determine appropriate, to be given to the appropriate
42 State, interstate and federal agencies, to interested persons, and to the
43 public. The Commission shall prescribe the form and content of the
44 notice.

1 The notice required herein shall be given at least 45 days
2 prior to any proposed final action granting or denying the
3 permit. Public notice shall be given by publication of the notice
4 one time in a newspaper having general circulation within the
5 county.

6 b. Repealed by Session Laws 1987, c. 734.

- 7 (3) If any person desires a public meeting on any application for permit or
8 renewal of an existing permit provided for in this subsection, he shall
9 so request in writing to the Commission within 30 days following date
10 of the notice of intent. The Commission shall consider all such
11 requests for meeting, and if the Commission determines that there is a
12 significant public interest in holding such meeting, at least 30 days'
13 notice of such meeting shall be given to all persons to whom notice of
14 intent was sent and to any other person requesting notice. At least 30
15 days prior to the date of meeting, the Commission shall also cause a
16 copy of the notice thereof to be published at least one time in a
17 newspaper having general circulation in such county. In any county in
18 which there is more than one newspaper having general circulation in
19 that county, the Commission shall cause a copy of such notice to be
20 published in as many newspapers having general circulation in the
21 county as the Commission in its discretion determines may be
22 necessary to assure that such notice is generally available throughout
23 the county. The Commission shall prescribe the form and content of
24 the notices.

25 The Commission shall prescribe the procedures to be followed in
26 such meetings. If the meeting is not conducted by the Commission,
27 detailed minutes of the meeting shall be kept and shall be submitted,
28 along with any other written comments, exhibits or documents
29 presented at the meeting, to the Commission for its consideration prior
30 to final action granting or denying the permit.

- 31 (4) Not later than 60 days following notice of intent or, if a public hearing
32 is held, within 90 days following consideration of the matters and
33 things presented at such hearing, the Commission shall grant or deny
34 any application for issuance of a new permit or for renewal of an
35 existing permit. All permits or renewals issued by the Commission and
36 all decisions denying application for permit or renewal shall be in
37 writing.
- 38 (5) No permit issued pursuant to this subsection (c) shall be issued or
39 renewed for a term exceeding five years.
- 40 (6) The Commission shall not act upon an application for a new
41 nonmunicipal domestic wastewater discharge facility until it has
42 received a written statement from each city and county government
43 having jurisdiction over any part of the lands on which the proposed
44 facility and its appurtenances are to be located which states whether

1 the city or county has in effect a zoning or subdivision ordinance and,
2 if such an ordinance is in effect, whether the proposed facility is
3 consistent with the ordinance. The Commission shall not approve a
4 permit application for any facility which a city or county has
5 determined to be inconsistent with its zoning or subdivision ordinance
6 unless it determines that the approval of such application has statewide
7 significance and is in the best interest of the State. An applicant for a
8 permit shall request that each city and county government having
9 jurisdiction issue the statement required by this subdivision by mailing
10 by certified mail, return receipt requested, a written request for such
11 statement and a copy of the draft permit application to the clerk of the
12 city or county. If a local government fails to mail the statement
13 required by this subdivision, as evidenced by a postmark, within 15
14 days after receiving and signing for the certified mail, the Commission
15 may proceed to consider the permit application notwithstanding this
16 subdivision.

17 (d) Applications and Permits for Sewer Systems, Sewer System Extensions and
18 Pretreatment Facilities, and for Wastewater Treatment Facilities Not Discharging to the
19 Surface Waters of the State. – All applications for new permits and for renewals of
20 existing permits for sewer systems, sewer system extensions and for disposal systems or
21 treatment works which do not discharge to the surface waters of the State, and all
22 permits or renewals and decisions denying any application for permit or renewal shall
23 be in writing. The Commission shall act on a permit application as quickly as possible.
24 The Commission may conduct any inquiry or investigation it considers necessary before
25 acting on an application and may require an applicant to submit plans, specifications,
26 and other information the Commission considers necessary to evaluate the application.
27 If the Commission fails to act on an application for a permit, including a renewal of a
28 permit, within 90 days after the applicant submits all information required by the
29 Commission, the application is considered to be approved. Permits and renewals issued
30 in approving such facilities pursuant to this subsection (d) shall be effective until the
31 date specified therein or until rescinded unless modified or revoked by the Commission.
32 Local governmental units to whom pretreatment program authority has been delegated
33 shall establish, maintain, and provide to the public, upon written request, a list of
34 pretreatment applications received.

35 (d1) Each applicant under subsections (c) or (d) for a permit (or the renewal
36 thereof) for the operation of a treatment works for a private multi-family or single
37 family residential development, in which the owners of individual residential units are
38 required to organize as a lawfully constituted and incorporated homeowners' association
39 of a subdivision, condominium, planned unit development, or townhouse complex, shall
40 be required to enter into an operational agreement with the Commission as a condition
41 of any such permit granted. The agreement shall address, as necessary, construction,
42 operation, maintenance, assurance of financial solvency, transfers of ownership and
43 abandonment of the plant, systems, or works, and shall be modified as necessary to
44 reflect any changed condition at the treatment plant or in the development. Where the

1 Commission finds appropriate, it may require any other private residential subdivision,
2 condominium, planned unit development or townhouse complex which is served by a
3 private treatment works and does not have a lawfully constituted and incorporated
4 homeowners' association, and for which an applicant applies for a permit or the renewal
5 thereof under subsections (c) or (d), to incorporate as a lawfully constituted
6 homeowners' association, and after such incorporation, to enter into an operational
7 agreement with the Commission and the applicant as a condition of any permit granted
8 under subsections (c) or (d). The local government unit or units having jurisdiction over
9 the development shall receive notice of the application within an established comment
10 period and prior to final decision.

11 (e) Administrative Review. – A permit applicant or permittee who is dissatisfied
12 with a decision of the Commission may commence a contested case by filing a petition
13 under G.S. 150B-23 within 30 days after the Commission notifies the applicant or
14 permittee of its decision. If the permit applicant or permittee does not file a petition
15 within the required time, the Commission's decision is final and is not subject to review.

16 (f) Local Permit Programs for Sewer Extension. – Municipalities, counties, local
17 boards or commissions, water and sewer authorities, or groups of municipalities and
18 counties may establish and administer within their utility service areas their own general
19 permit programs in lieu of State permit required in G.S. 143-215.1(a)(2), (3), and (8)
20 above, for construction, operation, alteration, extension, change of proposed or existing
21 sewer system, subject to the prior certification of the Commission. For purposes of this
22 subsection, the service area of a municipality shall include only that area within the
23 corporate limits of the municipality and that area outside a municipality in its
24 extraterritorial jurisdiction where sewer service is already being provided by the
25 municipality to the permit applicant or connection to the municipal sewer system is
26 immediately available to the applicant; the service areas of counties and the other
27 entities or groups shall include only those areas where sewer service is already being
28 provided to the applicant by the permitting authority or connection to the permitting
29 authority's system is immediately available. No later than the 180th day after the receipt
30 of a program and statement submitted by any local government, commission, authority,
31 or board the Commission shall certify any local program that:

- 32 (1) Provides by ordinance or local law for requirements compatible with
33 those imposed by this Part and the rules implementing this Part;
- 34 (2) Provides that the Department receives notice and a copy of each
35 application for a permit and that it receives copies of approved permits
36 and ~~plans;~~ plans upon request by the Commission;
- 37 (3) Provides that plans and specifications for all construction, extensions,
38 alterations, and changes be prepared by or under the direct supervision
39 of an engineer licensed to practice in this State;
- 40 (4) Provides for the adequate enforcement of the program requirements by
41 appropriate administrative and judicial process;
- 42 (5) Provides for the adequate administrative organization, engineering
43 staff, financial and other resources necessary to effectively carry out its
44 plan review program;

- 1 (6) Provides that the system is capable of interconnection at an appropriate
2 time with an expanding municipal, county, or regional system;
3 (7) Provides for the adequate arrangement for the continued operation,
4 service, and maintenance of the sewer system; and
5 (8) Is approved by the Commission as adequate to meet the requirements
6 of this Part and the rules implementing this Part.

7 The Commission may deny, suspend, or revoke certification of a local program upon
8 a finding that a violation of the provisions in subsection (f) of this section has
9 occurred. A denial, suspension, or revocation of a certification of a local program shall
10 be made only after notice and a public hearing. If the failure of a local program to carry
11 out this subsection creates an imminent hazard, the Commission may summarily revoke
12 the certification of the local program. Chapter 150B of the General Statutes does not
13 apply to proceedings under this subsection.

14 Notwithstanding any other provision of this subsection, if the Commission
15 determines that a sewer system, treatment works, or disposal system is operating in
16 violation of the provisions of this Article and that the appropriate local authorities have
17 not acted to enforce those provisions, the Commission may, after written notice to the
18 appropriate local government, take enforcement action in accordance with the
19 provisions of this Article.

20 (g) Any person who is required to hold a permit under this section shall submit to
21 the Department a written description of his current and projected plans to reduce the
22 discharge of waste and pollutants under such permit by source reduction or recycling.
23 The written description shall accompany the payment of the annual permit fee. The
24 written description shall also accompany any application for a new permit, or for
25 modification of an existing permit, under this section. The written description required
26 by this subsection shall not be considered part of a permit application and shall not
27 serve as the basis for the denial of a permit or permit modification."

28 Sec. 2. This act is effective October 1, 1991.
