23 Proposed Fishery Management Plans shall be developed in accordance with the Priority
24 List, Schedule, and guidance criteria established by the Marine Fisheries Commission
25 under ~~G.S. 143B-289.22.~~ G.S. 143B-289.52.

26 (b) The goal of the plans shall be to ensure the long-term viability of the State's
27 commercially and recreationally significant species or fisheries. Each plan shall be
28 designed to reflect fishing practices so that one plan may apply to a specific fishery,
29 while other plans may be based on gear or geographic areas. Each plan shall:

37 (3) Include conservation and management measures that prevent
38 overfishing, while achieving, on a continuing basis, the optimal yield
39 from each fishery.

36 Joint Legislative Commission on Seafood and Aquaculture and the Environmental
37 Review Commission shall concurrently review each proposed Fishery Management Plan
38 within 30 days of the date the proposed Plan is submitted by the Secretary. The Joint
39 Legislative Commission on Seafood and Aquaculture and the Environmental Review
40 Commission may submit comments and recommendations on the proposed Plan to the
41 Secretary within 30 days of the date the proposed Plan is submitted by the Secretary.

42 (f) The Marine Fisheries Commission shall adopt rules to implement Fishery
43 Management Plans in accordance with Chapter 150B of the General Statutes.

1 (g) To achieve optimal yield under a Fishery Management Plan, the Marine
2 Fisheries Commission may include in the Plan a recommendation that the General
3 Assembly limit the number of fishermen authorized to participate in the fishery. The
4 Commission may recommend that the General Assembly limit participation in a fishery
5 only if the Commission determines that optimal yield cannot otherwise be achieved. In
6 determining whether to recommend that the General Assembly limit participation in a
7 fishery, the Commission shall consider all of the following factors:

8 (1) Current participation in and dependence on the fishery.

9 (2) Past fishing practices in the fishery.

9 Fisheries Director. All proclamations must state the hour and date upon which they
10 become effective and must be issued at least 48 hours in advance of the effective date and
11 time. In those situations in which the proclamation prohibits the taking of certain fisheries
12 resources for reasons of public health, the proclamation can be made effective
13 immediately upon issuance. Notwithstanding any other provisions of this subsection, a
14 proclamation can be issued at least 12 hours in advance of the effective date and time to
