36 the amount of up to two hundred dollars (\$200.00) for each day that the  
37 deficiency continues beyond the date specified for correction without  
38 just reason for the failure. The Department or its authorized  
39 representative shall ensure that the violation has been corrected.

- 40 (3) The Department shall impose a civil penalty which is treble the amount  
41 assessed under subdivision (1) of subsection (a) of this section when a  
42 facility under the same management, ownership, or control has received  
43 a citation and paid a penalty for violating the same specific provision of

1           a statute or regulation for which it received a citation during the  
2           previous 12 months.

3           (c) Factors to Be Considered in Determining Amount of Initial Penalty. – In  
4           determining the amount of the initial penalty to be imposed under this section, the  
5           Department shall consider the following factors:

6           (1)   The gravity of the violation, including the fact that death or serious  
7           physical harm to a client or patient has resulted; the severity of the  
8           actual or potential harm, and the extent to which the provisions of the  
9           applicable statutes or regulations were violated;

10          (2)   The gravity of the violation, including the probability that death or  
11          serious physical harm to a client or patient will result; the severity of the  
12          potential harm, and the extent to which the provisions of the applicable  
13          statutes or regulations were violated;

14          (3)   The gravity of the violation, including the probability that death or  
15          serious physical harm to a client or patient may result; the severity of  
16          the potential harm, and the extent to which the provisions of the  
17          applicable statutes or regulations were violated;

18          (4)   The reasonable diligence exercised by the licensee to comply with G.S.  
19          131E-256 and other applicable State and federal laws and regulations;

20          (5)   Efforts by the licensee to correct violations;

21          (6)   The number and type of previous violations committed by the licensee  
22          within the past 36 months;

23          (7)   The amount of assessment necessary to ensure immediate and continued  
24          compliance; and

25          (8)   The number of clients or patients put at risk by the violation.

26          (d) The facts found to support the factors in subsection (c) of this section shall be  
27          the basis in determining the amount of the penalty. The Department shall document the  
28          findings in written record and shall make the written record available to all affected  
29          parties including:

30               (1)   The licensee involved;

31               (2)   The clients or patients affected; and

32               (3)   The family members or guardians of the clients or patients affected.

34          allow an authorized representative of the Department to inspect the premises and records  
35          of the facility.

36          (f) Any facility wishing to contest a penalty shall be entitled to an administrative  
37          hearing as provided in Chapter 150B of the General Statutes. A petition for a contested  
38          case shall be filed within 30 days after the Department mails a notice of penalty to a  
39          licensee. At least the following specific issues shall be addressed at the administrative  
40          hearing:

41               (1)   The reasonableness of the amount of any civil penalty assessed, and

1           (2) The degree to which each factor has been evaluated pursuant to  
2           subsection (c) of this section to be considered in determining the amount  
3           of an initial penalty.

4           If a civil penalty is found to be unreasonable or if the evaluation of each factor is  
5           found to be incomplete, the hearing officer may recommend that the penalty be adjusted  
6           accordingly.

7           (g) Any penalty imposed by the Department of Health and Human Services under  
8           this section shall commence on the day the violation began.

9           (h) The Secretary may bring a civil action in the superior court of the county  
10          wherein the violation occurred to recover the amount of the administrative penalty  
11          whenever a facility:

12           (1) Which has not requested an administrative hearing fails to pay the  
13           penalty within 60 days after being notified of the penalty, or

14           (2) Which has requested an administrative hearing fails to pay the penalty  
15           within 60 days after receipt of a written copy of the decision as provided  
16           in G.S. 150B-36.

17          (i) In lieu of assessing an administrative penalty, the Secretary may order a  
18          facility to provide staff training if:

19           (1) The penalty would be for the facility's only violation within a 12-month  
20           period preceding the current violation and while the facility is under the  
21           same management; and

22           (2) The training is:

23           a. Specific to the violation;

24           b. Approved by the Department of Health and Human Services; and

25           c. Taught by someone approved by the Department and other than  
26           the provider.

27          (j) The clear proceeds of civil penalties provided for in this section shall be  
28          remitted to the State Treasurer for deposit in accordance with State law.

29          (k) In considering renewal of a license, the Department shall not renew a license if  
30          outstanding fines and penalties imposed by the Department against the facility or  
31          program have not been paid. Fines and penalties for which an appeal is pending are  
32          exempt from consideration for nonrenewal under this subsection."
