The General Assembly of North Carolina enacts:

**SECTION 1.(a)** Notwithstanding any other provision of law to the contrary, Buncombe County and the counties contiguous to Buncombe County may establish and implement a five-year health insurance demonstration project ("Demonstration Project"), the goal of which is to reduce the number of uninsured North Carolinians and to reduce the cost of health insurance for all purchasers of health insurance in the Demonstration Project area. The Demonstration Project must comply with the following:

- (1) The products for which the pooling of small and large groups would occur are fully insured.
- (2) The pooling arrangement requires that all small employers desiring to join be accepted, and that all employees of each employer be included in the pool.

**SECTION 1.(b)** The Demonstration Project authorized under Section 1 of this act may contain the following components:

- (1) Use of matching funds from State, federal, and private sources to subsidize private health insurance premiums paid by eligible small employers and low-wage employees participating in the Demonstration Project.
- (2) Offer a health benefits package with defined tiers of benefits and premium payment mechanisms as optional alternatives to the standard,

1 large group health benefits package to be applied to eligible small  
2 employers in achieving affordable health insurance premiums for  
3 employees and employers.

- 4 (3) The establishment of a community-rated large-risk pool among  
5 participating public employers, nonprofit employers, for-profit  
6 employers, and eligible small employers to purchase appropriate fully  
7 insured health benefits at competitive uniform premium prices that  
8 share the risk of catastrophic losses equitably among all participants.  
9 The large risk pool authorized in this subdivision shall not be  
10 established unless and until reviewed and approved by the Department  
11 of Insurance.

12 **SECTION 1.(c)** Based on information provided by the Demonstration  
13 Project and other sources, the Department of Insurance shall evaluate the Demonstration  
14 Project to determine the following:

- 15 (1) The impact on the number of uninsured persons in the Demonstration  
16 Project area and the cost and source of their care.  
17 (2) The impact of unique, local structures for disease management and  
18 health promotion modeled in Buncombe County among large  
19 employers on the health and costs for enrollees through small  
20 employers.  
21 (3) Approaches to achieve prudent and appropriate use of high technology  
22 health care resources to the population enrolled in the Demonstration  
23 Project among large and small employers.  
24 (4) Integration of primary care for the increased insured population with  
25 the ongoing programs of care for the remaining uninsured to enhance  
26 access, improve quality and continuity of care.  
27 (5) The impact on the cost of care to uninsured and insured populations in  
28 the piloted communities.  
29 (6) Other information and data requested by the Department of Insurance  
30 to ascertain the benefits and drawbacks of the Demonstration Project.
