A BILL TO BE ENTITLED

AN ACT TO MAKE VARIOUS CHANGES TO THE LAWS AFFECTING CHARTER SCHOOLS.

The General Assembly of North Carolina enacts:

PART I. CLARIFY REQUIREMENTS OF CHARTER APPLICATION AND RENEWAL

SECTION 1.(a) G.S. 115C-218.5(a) reads as rewritten:
"(a) The State Board may grant final approval of an application if it finds the following:

(1) The application meets the requirements set out in this Article and such other requirements as may be adopted by the State Board of Education.
(2) The applicant has the ability to operate the school and would be likely to operate the school in an educationally and economically sound manner.
(3) Granting the application would achieve one or more of the purposes set out in G.S. 115C-218.

In reviewing applications for the establishment of charter schools within a local school administrative unit, the State Board is encouraged to give preference to applications that demonstrate the capability to provide comprehensive learning experiences to students identified by the applicants as at risk of academic failure. The Board shall not consider any alleged impact on the local school administrative unit or units in the area served by a charter school when deciding whether to grant, renew, amend, or terminate a charter."

SECTION 1.(b) G.S. 115C-218.6(b)(2) reads as rewritten:
"(2) The charter school's student academic outcomes for the immediately preceding three years have not been comparable to the academic outcomes of students in the local school administrative unit in which the charter school is located. For purposes of this section, if a school’s charter results in it providing services to certain targeted subgroups, the school’s academic performance shall be judged in comparison to the academic outcomes of students in the same subgroups in the local school administrative unit where the school is located."

PART II. LIMIT ENROLLMENT CAPS TO LOW-PERFORMING SCHOOLS

SECTION 2.(a) G.S. 115C-218.7 reads as rewritten:
"§ 115C-218.7. Material revisions of charters.
(a) A material revision of the provisions of a charter shall be made only upon the approval of the State Board of Education.
(b) Enrollment growth of greater than twenty percent (20%) shall be considered a material revision of the charter if the charter is currently identified as low-performing. The State Board shall not approve a material revision for enrollment growth of greater than twenty percent (20%) for a charter that is currently identified as low performing. Enrollment growth of greater than thirty percent (30%) shall be considered a material revision of the charter for any charter school that is not identified as low-performing. The State Board may approve such additional enrollment growth of greater than thirty percent (30%) only if it finds all of the following:

If a charter school has been identified as low-performing under G.S. 115C-105.37A, then it shall be considered a material revision of the school's charter to increase its maximum authorized enrollment by more than twenty percent (20%) of the previous year's maximum authorized enrollment. For the purposes of this section, maximum authorized enrollment is as defined in G.S. 115C-218.8.

(1) The actual enrollment of the charter school is within ten percent (10%) of its maximum authorized enrollment.

(2) The charter school has commitments for ninety percent (90%) of the requested maximum growth.

(3) The charter school is not currently identified as low-performing.

(4) The charter school meets generally accepted standards of fiscal management.

(5) The charter school is, at the time of the request for the enrollment increase, substantially in compliance with State law, federal law, the charter school's own bylaws, and the provisions set forth in its charter granted by the State Board.

(c) For the purposes of calculating actual enrollment and maximum authorized enrollment under subdivision (1) of subsection (b) of this section, if a charter school is pursuing a material revision of enrollment growth based on a proposed capital expansion of the charter school, but fails to meet the requirements of subdivision (1) of subsection (b) of this section, the State Board shall have the discretion to investigate and determine whether subdivision (1) of subsection (b) of this section may be waived to grant the school's material revision request to allow the capital expansion to move forward. In making such a determination, the charter school shall provide the State Board with documentation to show evidence that demonstrates sufficiently in the State Board's discretion all of the following:

(1) The requested increase in enrollment growth is within a reasonable margin of the threshold necessary to support the requested material revision.

(2) The charter school has secured financing for its proposed capital expansion conditioned on its obtaining the requested material revision of enrollment growth.

(d) If a charter school presents evidence of a proposed capital expansion as part of a request for a material revision of enrollment growth under this section that is granted by the State Board, and the charter school is not able to realize that capital expansion within two years of the grant of the material revision, the charter shall reflect the maximum authorized enrollment immediately preceding that material revision."

SECTION 2.(b) G.S. 115C-218.8 reads as rewritten:

It shall not be considered a material revision of a charter and shall not require prior approval of the State Board for a charter school to do any of the following:

(1) Increase its maximum authorized enrollment during the charter school's second year of operation and annually thereafter in accordance with G.S. 115C-218.7(b), thereafter, provided the school is not identified as low-performing under G.S. 115C-105.37A. The maximum authorized enrollment is the target enrollment number identified in a school's charter. The
maximum authorized enrollment may only be updated once per year and shall not decrease based on actual enrollment.

(2) Increase—If a school is low-performing under G.S. 115C-105.37A and has planned growth authorized in its charter, increase its maximum authorized enrollment during the charter school’s second year of operation and annually thereafter in accordance with planned growth as authorized in its charter.

(3) Expand to offer one grade higher or lower than the charter school currently offers if the charter school has (i) operated for at least three years, (ii) has not been identified as continually low-performing as provided in G.S. 115C-218.94, and (iii) has been in financial compliance as required by the State Board."

PART III. CHARTER SCHOOLS MAY ADOPT A MICRO SCHOOL PROGRAM

   b. The criteria the school will use to determine whether the parent’s request for assignment will be granted or denied.
   c. How the school will make a recommendation to a parent that the student be assigned to a micro school.
   d. How a parent may consent to or reject the school’s recommendation that the student be assigned. No student shall be assigned to a micro school without parental consent.

(e) Students and teachers assigned to micro schools are subject to all provisions of the school’s charter, except for those provisions which are in conflict with this section.

(f) No more than fifty percent (50%) of the charter school’s total enrollment may be assigned to micro schools."

The county may subordinate the deed of trust to other liens to facilitate the acquisition or improvement of
the property secured by the deed of trust. In the event that a charter school repays the county in
the amount of the capital funds provided, the county shall, for the property acquired or improved
by the funds, execute and file a deed of release or other documentation of satisfaction showing

child resides shall transfer to the charter school an amount equal to the per pupil share of the local
current expense fund of the local school administrative unit for the fiscal year. The per pupil
share of the local current expense fund shall be transferred to the charter school within 30 days

and charter school may use the process for mediation of differences between the State Board and
a charter school provided in G.S. 115C-218.95(d) to resolve differences on calculation and
transference of the per pupil share of the local current expense fund. The amount transferred
under this subsection that consists of revenue derived from supplemental taxes shall be
