Short Title: Make Healthcare Affordable. (Public)

Sponsors: Representative K. Hall.

Referred to:

A BILL TO BE ENTITLED

AN ACT TO DISCLOSE THE COST OF STATE GOVERNMENT HEALTH INSURANCE MANDATES ON NORTH CAROLINA'S EMPLOYERS AND TAXPAYERS.

Whereas, the rising healthcare costs in North Carolina place a significant financial burden on individuals, families, employers, and taxpayers, greatly contribute to inflation, and make it increasingly difficult for residents to access essential healthcare services; and

Whereas, North Carolina has intolerably high healthcare costs, with recent studies ranking the state 50th out of 50 in the United States; and

Whereas, government-mandated health insurance requirements for employers in North Carolina lead to higher premiums, placing undue financial strain on employers, particularly small businesses; and

Whereas, health insurance mandates on the North Carolina State Health Plan for Teachers and State Employees carry a cost that is ultimately paid for by taxpayers and divert resources away from other critical public services and economic investments; and

Whereas, many consumers in North Carolina are forced to pay for health insurance coverage they neither need nor use as a result of government-mandated benefits that do not align with their personal healthcare needs or preference; and

Whereas, the continued escalation of healthcare costs driven by government mandates exacerbates the rising cost of living, as individuals and families struggle to afford both premiums and out-of-pocket expenses for necessary care, and the rising cost of doing business, as employers struggle to continue offering health insurance to employees; Now, therefore,

The General Assembly of North Carolina enacts:
