10 **SECTION 1.(b)** Introduction. – The appropriations made in this act are for the  
11 amounts necessary to modernize education-to-workforce pathways across the State, to improve  
12 credit acquisition and transfer for students, strengthen career information sharing among

14 provide faster, clearer routes to credential completion and career success.

15  
16 **PART II. APPRENTICESHIP NC SUPPORT**

17 **SECTION 2.(a)** Findings. – The General Assembly finds that work-based learning  
18 is of value to learners as well as employers; that apprenticeship is a highly effective work-based  
19 learning model and provides a significant return on investment; that continued growth of  
20 apprenticeship is important to the State's economy; that ApprenticeshipNC is critical to  
21 increasing the number of employers participating in apprenticeships as well as the number of  
22 registered apprentices in North Carolina; that continued growth of apprenticeship is at risk  
23 without adequate support for ApprenticeshipNC; and that additional State support is necessary  
24 to sustain apprenticeship growth.

25 **SECTION 2.(b)** Appropriation. – There is appropriated from the General Fund to  
26 the Community Colleges System Office the sum of three million one hundred thousand dollars

4 **SECTION 3.1.(b)** Appropriation. – There is appropriated from the General Fund to  
5 the Department the sum of three hundred fifty thousand dollars (\$350,000) in recurring funds,

25 to federal Workforce Pell Grants and to take steps to institutionalize workforce data sharing  
26 across State government.

27 **SECTION 3.1.(e)** Longitudinal Data. – As part of its efforts to link data on  
28 industry-valued credentials to labor market outcomes, the Department shall encourage issuers of  
29 those credentials to submit data pertaining to credentials issued to the North Carolina  
30 Longitudinal Data System for inclusion in the System's Licenses and Credentials Data  
31 Warehouse to enhance the State's ability to retrieve and link those data to labor market outcomes.
